

*Upholstery for each unit is made up specifically for that coach. The highest quality of fabrics and materials is used.*

*Interior Space: designed with luxury and comfort in mind. The double or twin bed combination as shown on the opposite page is available in all three sizes. Twin sofas in the living room are also available in all three sizes. The standard layouts of the 31' and 33' models are shown in the drawings above. The 35' floor plan is shown in the model. The bathroom in the side bath model is located in the center of the coach and features an individual shower, storage under the sink and separate medicine cabinet. Options such as washer/dryer, ice maker, microwave oven and various drawers and cabinets can be customer located where space is available. Choose floor plans and interior color schemes that will make the Wanderlodge uniquely yours.*

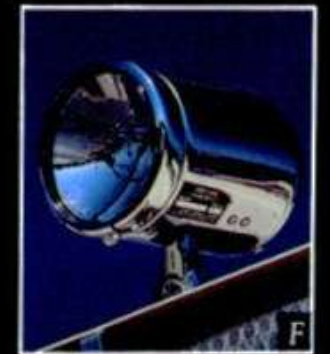

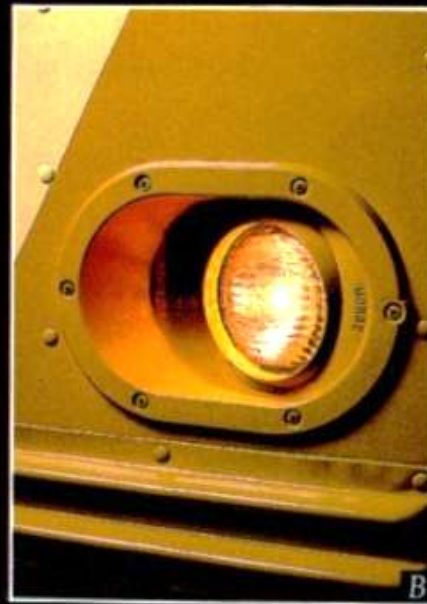

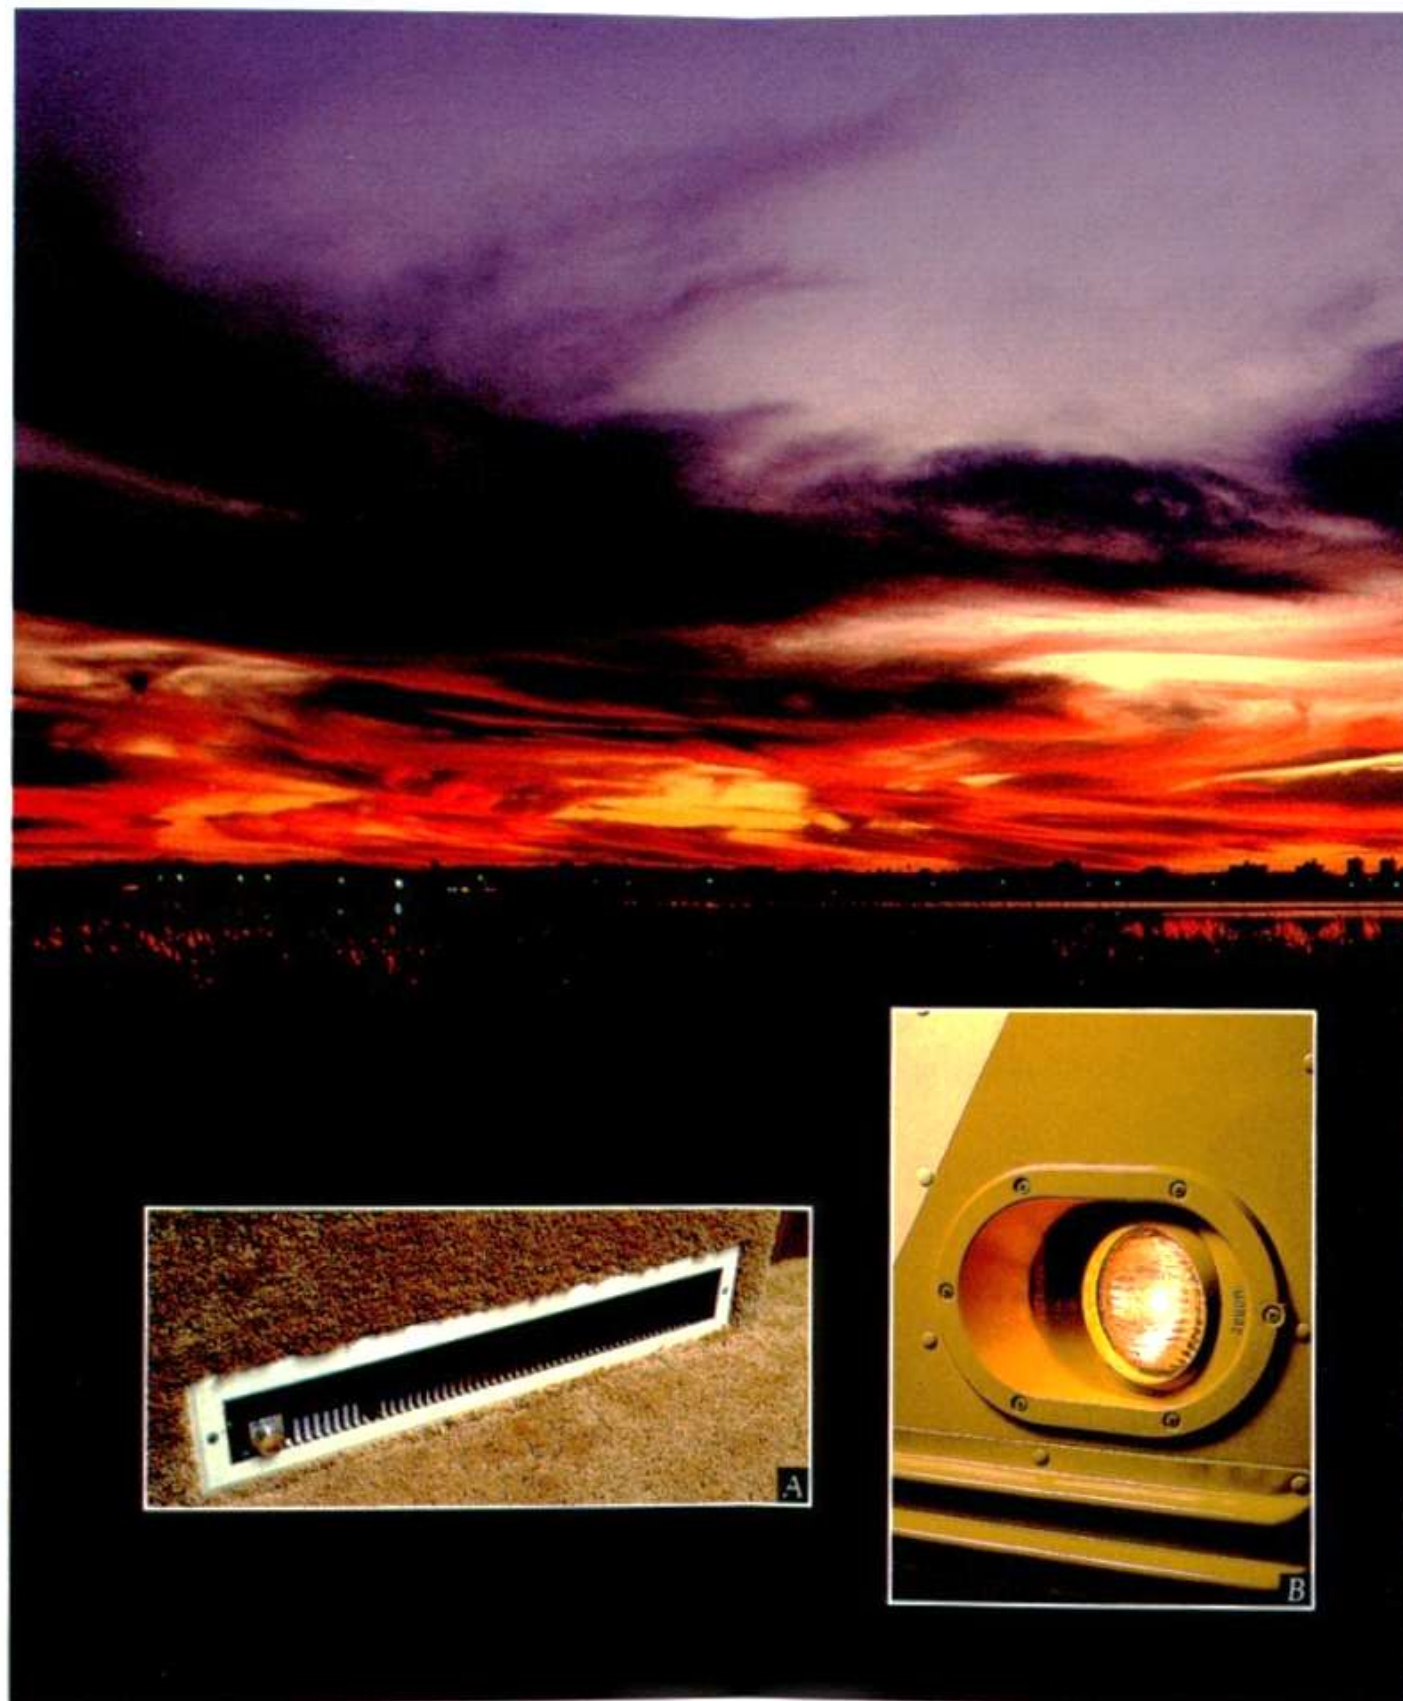

*The thirty-five foot side bath model shown is equipped with twin sofas and a double bed.*

Total quality of materials and pride of craftsmanship put Wanderlodge head-and-shoulders above other motorhomes. Special care is taken with each facet of production to assure you safety, comfort, serviceability and durability.

(A) Optional electric heat provides year round protection for the water system. Three 1500 watt forced air heaters are located in the living area, and blowers with 900 watt heating elements are placed under the bed and the kitchen sink to provide freeze protection. An additional electric heater is installed as standard equipment in the bathroom. (B) Landing lights give improved visibility, especially for backing. (C) There is plenty of storage throughout the coach. Shown are the carpeted storage compartments under the front sofas. (D) An excellent feature for towing is the optional closed circuit TV system for viewing the rear of the coach. (E) The TV monitor is mounted in the top center of the windshield. The rear view mirror for in-coach viewing is placed just below the monitor. (F) Optional 110,000 candlepower spotlight is controlled from the driver's compartment and can be rotated 360 degrees plus up and down.

LP gas lines are copper and are one piece from fitting to fitting. The gas system has a built-in leak detector and shut-off valve.

Wanderlodge has earned its reputation as the most prestigious motorhome.

Drive a Wanderlodge and feel superb performance. Easy maneuverability. Total comfort. Meticulous attention to detail by Blue Bird's experienced craftsmen gives Wanderlodge quality you can be sure of... and proud of.

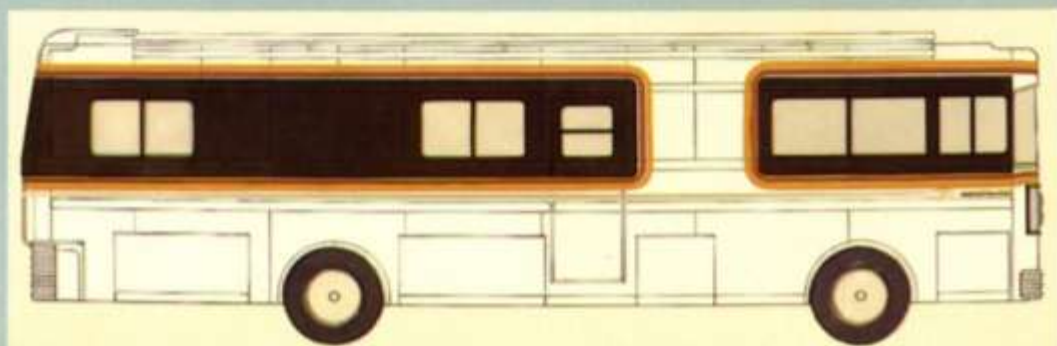

(A) All gauges are within easy sight of the driver on Wanderlodge's standard full control dash. Complete instrumentation provides the driver with constant monitoring of coach systems. (B) The optional safe, secured to the body frame, is installed in an inconspicuous area. (C) The optional awning makes a shady patio. Individual awnings for left side windows are also available. (D) A large capacity ice maker can be located where space is available. (E) The complete entertainment center by Panasonic that is standard equipment includes an AM/FM radio, 8-track stereo tape player and stereo cassette player. A power booster is unitized with the system to give 10 watts of stereo sound.

All plumbing is heat-taped for protection against freezing when 110 volt is available.

Wanderlodge owners belong to the most prestigious club on the highways. Owners from all over the country attend Wanderlodge rallies, and exciting special events planned for the group are fun for everyone.
