

## Subject: Engine Cooling Fan Replacement

### Accept no imitations.

Replacing the fan with the original component specified on the vehicle assures:

- Engineering validated cooling performance
- Validated for structural integrity in truck application
- Successful laboratory testing through rigorous duty cycles and adverse conditions
- Strict molding parameters maintained for fan processing and secondary operations
- Precision balanced to manufacturer and OEM specifications
- Fan designed to match OEM customer specific vehicle application with respect to allowable speeds, penetration into shroud, and obstruction clearances
